

To Springfield Planning Commission 2-8-10

This letter is in regards to the Public hearing notice sent out February 2, 2010 to various property owners in the proposed changes in the Urban Growth Boundaries.

Re: Our property is zoned Low Density Residential. But according to the UGB plan written up in the late 80's wanted to turn us into Medium Density Res. Area.

We are very concerned with this proposal as it disturbs the continuity of the historical nature of our neighborhood, which is low key, low traffic area, if it was to be changed to Medium Density it would hurt our neighborhood.

We have already been through the "Soup Kitchen" ordeal with all the zoning regulations. With this we hope to keep the Low Density intact.

We are strongly opposed to any and all proposed zoning changes.

We may not be able to attend the 2-17-10 hearing because of work hours. So we would like to be informed in writing of any and all future proposals meetings/hearings concerning this matter.

Thank you Gregory + Lorrissa Leno
