WORK SESSION

1. Natural Resources Implementation Planning –

The Springfield Inventory of Natural Resources Sites was adopted by the City Council on May 3, 2004. The Council acted in accord with the Planning Commission's recommendation to apply the "safe harbor" provision of the Oregon Administrative Rules to upland natural resource areas and the "standard process" to riparian resource areas. The approval of the Inventory is an important step towards completion of Springfield's natural resource planning responsibilities. The purpose of this briefing is to acquaint the Planning Commission with the steps remaining in the Goal 5 planning process and with the approach that staff is pursuing to complete those steps.
